Lab Two – Add Some Style (2%)

For this lab, return to the form you built for Lab One and, using what you now know about CSS, add some style to this form.

To Complete This Lab

- Use the HTML created for Lab One as your starting point
- Style your form using at least four different types of selectors (you can edit HTML if you need to add attributes, ID, class). For a full list of CSS properties please see: MDN Web Docs - CSS Reference (4 marks)
- Complete the following: change the body background colour, change the colour of any headings, use padding and margin on form inputs and labels, add a border to an element of your choice, modify the text style of the label text (6 marks)
- Add comments to your code explaining the different selectors and what styles they are changing/applying (2 marks)

Submission Details

- a link to your GitHub repository for this assignment

- A link to your published page using Github Pages

Learning Objectives:

- construct a variety of CSS rules and declarations using current selectors, properties, and values;

Weight

Lab Two is worth 2% of your final grade

	Getting There	**Good Job**	**Awesome**
Four Different CSS Selectors	No/ Not Demonstrated **(0 marks)**	Somewhat/ Attempted **(2 marks)**	Yes **(4 marks)**
Required styles implemented/ applied	No/ Not Demonstrated **(0 marks)**	Somewhat/ Attempted **(2 marks)**	Yes **(4 marks)**
Code Comments demonstrate understanding	No/ Not Demonstrated **(0 marks)**	Somewhat/ Attempted **(2 marks)**	Yes **(4 marks)**

Lab Due Date:

Friday, February 6th @ 11:59 pm

Lab Weight:

2% of final grade
